BE-103 · BTech First Year · UIT, Barkatullah University, Bhopal

Technical English — Short Notes

Unit-wise complete syllabus coverage · Hinglish notes · Prepared by Ajeet Soni

UNIT I Application of Linguistic Ability

1. Articles (a, an, the)

Articles noun se pehle aate hain aur batate hain ki noun **definite** (specific) hai ya **indefinite** (koi bhi). **a/an** = Indefinite article, **the** = Definite article.

a — consonant *sound* se pehle: a book, a university (yoo-), a one-way road (wun-), a European.

an — vowel *sound* se pehle: an apple, an hour (silent h), an honest man, an MBA (em-), an X-ray.

a/an — pehli baar mention, profession, rate: *She is an engineer. 60 km an hour.*

the — already mentioned/specific: *I bought a laptop. The laptop is fast.*

the — unique objects, superlatives, ordinals: the sun, the best student, the first chapter.

the — rivers, seas, mountain ranges, newspapers, holy books, plural countries: the Ganga, the Himalayas, the Hindu, the Gita, the USA.

the — instruments, inventions, whole class: *She plays the guitar. The computer has changed our lives.*

No article — proper nouns, languages, meals, games, abstract nouns (general sense): *He speaks English. We play cricket. Honesty is the best policy.*

COMMON MISTAKE "He is ~~a~~ honest boy" ✗ → "He is **an** honest boy" ✓. "She is ~~an~~ university topper" ✗ → "She is **a** university topper" ✓. Rule: **sound** decide karta hai, letter nahi.

2. Prepositions

Preposition woh word hai jo noun/pronoun ka **relation** (time, place, direction, cause) sentence ke dusre word se batata hai: in, on, at, by, for, since, with, into, between, among, etc.

Type	Rule → Example
Time	**at** exact time (at 5 p.m., at night) · **on** days/dates (on Monday, on 15 August) · **in** months/years/seasons (in May, in 2025, in the morning)
Since / For	**since** = point of time: *I have lived here since 2020.* · **for** = period: *I have lived here for five years.*
Place	**at** point (at the gate) · **in** enclosed area (in the room) · **on** surface (on the table) · **between** two, **among** more than two
Motion	**into** movement inside, **in** position, **to** direction: *He jumped into the river. He went to Delhi.*
Fixed	good at, interested in, afraid of, depend on, agree with (a person), agree to (a proposal), comply with, superior to, senior to

COMMON MISTAKE "He is senior ~~than~~ me" ✗ → "senior **to** me" ✓. "Discuss ~~about~~ the problem" ✗ → "Discuss the problem" ✓. "I have been ill ~~since~~ two days" ✗ → "**for** two days" ✓.

3. Subject–Verb Agreement (Concord)

Basic rule: **Singular subject → singular verb**, **plural subject → plural verb**. Verb ko subject ke **number aur person** ke saath match karna chahiye.

1. Two subjects + and → plural. *Ram and Shyam are friends.* (But same person/idea → singular: *Bread and butter is my breakfast.*)

2. Either…or / Neither…nor / or → verb nearest subject se agree. *Neither the teacher nor the students were present.*

3. Each, every, everyone, nobody, either, neither → singular. *Each of the boys has a pen.*

4. as well as, along with, with, together with → first subject se agree. *The manager, along with his staff, is coming.*

5. One of + plural noun → singular verb. *One of my friends lives in Pune.*

6. Collective noun → unit ho to singular. *The committee has taken a decision.* Members alag-alag act karein to plural: *The jury were divided.*

7. Amount/distance/time as a unit → singular. *Ten kilometres is a long distance.*

8. Words that look plural (news, physics, mathematics) → singular. *The news is true.* Scissors, trousers, spectacles → plural. *My spectacles are new.*

9. The number of → singular; **A number of** → plural. *The number of students is 60. A number of students are absent.*

10. Relative pronoun (who/which/that) → antecedent se agree. *He is one of those engineers who work hard.*

4. Active and Passive Voice

Active: subject action karta hai (*The engineer designed the bridge.*). **Passive**: action ka receiver subject ban jata hai (*The bridge was designed by the engineer.*). Technical/scientific writing mein passive zyada use hota hai kyunki focus **process/result** par hota hai, doer par nahi.

FORMULA

$$\text{Passive} = \text{Object (as subject)} + \text{be (tense ke hisaab se)} + V_3\ \text{(past participle)} + \text{by} + \text{Subject (as object)}$$

Tense	Active → Passive	Tense	Active → Passive
Simple Present	He writes a letter. → A letter is written by him.	Simple Past	He wrote a letter. → A letter was written by him.
Present Cont.	He is writing a letter. → A letter is being written by him.	Past Cont.	He was writing a letter. → A letter was being written by him.
Present Perfect	He has written a letter. → A letter has been written by him.	Past Perfect	He had written a letter. → A letter had been written by him.
Simple Future	He will write a letter. → A letter will be written by him.	Future Perfect	He will have written a letter. → A letter will have been written by him.
Modals	We must finish the work. → The work must be finished (by us).	Imperative	Open the door. → Let the door be opened.
Wh-question	Who wrote this report? → By whom was this report written?	Yes/No question	Did he repair the pump? → Was the pump repaired by him?

YAAD RAKHO Perfect continuous tenses (has been writing, had been writing, will have been writing) aur future continuous ka passive normally **nahi banta**. Pronoun change: I→me, we→us, he→him, she→her, they→them. Intransitive verb (no object) ka passive nahi hota: *He sleeps.*

5. Sentence Structure

(a) Basic patterns (S = Subject, V = Verb, O = Object, C = Complement, A = Adverbial)

S + V: The machine stopped.

S + V + O: The student solved the problem.

S + V + C: Copper is a good conductor.

S + V + A: The meeting is in the seminar hall.

S + V + IO + DO: The teacher gave us a project.

S + V + O + C: They elected him captain.

S + V + O + A: She put the file on the desk.

(b) Types by structure

- **Simple sentence** — sirf ek independent clause (one finite verb): *The engine overheated due to low coolant.*
- **Compound sentence** — do ya zyada independent clauses, coordinating conjunction (and, but, or, so, yet — FANBOYS) se jude: *The coolant was low, so the engine overheated.*
- **Complex sentence** — ek main clause + ek ya zyada subordinate clauses (because, although, when, if, which, that): *The engine overheated because the coolant was low.*
- **Compound-complex** — dono ka mix: *The coolant was low, so the engine overheated when we climbed the hill.*

Types by function: Declarative (statement), Interrogative (question), Imperative (command/request), Exclamatory (strong feeling) — *What a brilliant design it is!*

6. Reported Speech — Direct and Indirect

Direct speech mein speaker ke exact words inverted commas mein hote hain. **Indirect (reported) speech** mein uska meaning apne words mein report karte hain, bina inverted commas.

Rule 1: Tense change (jab reporting verb past mein ho)

- Simple present → Simple past (is → was)
- Present continuous → Past continuous
- Present perfect → Past perfect
- Simple past → Past perfect
- will → would, shall → should, can → could, may → might
- must → had to (obligation)
- Universal truth / habitual fact → **tense nahi badalta**
- Reporting verb present/future → **tense nahi badalta**

Rule 2: Pronoun & Rule 3: Time/place words

Pronoun: 1st person → subject of reporting verb ke according; 2nd person → object of reporting verb ke according; 3rd person → no change (**SON** rule: **S**ubject–**O**bject–**N**o change).

now → then, today → that day, tomorrow → the next day / the following day, yesterday → the previous day / the day before, here → there, this → that, these → those, ago → before, next week → the following week.

Rule 4: Sentence-type ke hisaab se

Type	Direct	Indirect
Assertive	He said, "I am busy today."	He said that he was busy that day.
Truth	The teacher said, "The earth revolves around the sun."	The teacher said that the earth revolves around the sun.
Yes/No question	She said to me, "Have you finished the project?"	She asked me if/whether I had finished the project.
Wh- question	He said to me, "Where do you live?"	He asked me where I lived.
Imperative	The officer said to him, "Submit the report."	The officer ordered him to submit the report.
Negative command	She said, "Don't touch the wire."	She warned us not to touch the wire.
Request	He said to me, "Please help me."	He requested me to help him.
Exclamatory	He said, "What a fine machine!"	He exclaimed with joy that it was a very fine machine.

EXAM TIP Question ko indirect banane par question mark hata do aur word order statement jaisa karo (subject + verb): "asked me where I lived" — ~~where did I live~~ ✗. Reporting verb change: said → told (with object), asked, ordered, requested, advised, exclaimed.

7. Phonetic Transcription (IPA Basics)

English spelling aur pronunciation mein mismatch hai (e.g., "ough" in *though, through, tough*). Isliye **IPA (International Phonetic Alphabet)** use hota hai — ek symbol = ek sound. Transcription **/ /** slashes mein likhte hain. English (RP) mein **44 sounds**: **20 vowels** (12 pure + 8 diphthongs) aur **24 consonants**.

Vowels (20)	**Symbols with examples**
Short (7)	/ɪ/ sit, /e/ bed, /æ/ cat, /ʌ/ cup, /ɒ/ hot, /ʊ/ put, /ə/ about (schwa)
Long (5) — ː = length	/iː/ seat, /ɜː/ bird, /ɑː/ car, /ɔː/ law, /uː/ food
Diphthongs (8) — glide	/eɪ/ day, /aɪ/ my, /ɔɪ/ boy, /əʊ/ go, /aʊ/ now, /ɪə/ near, /eə/ hair, /ʊə/ poor
Consonants (24)	
Plosives (6)	/p/ pen, /b/ bat, /t/ ten, /d/ dog, /k/ cat, /g/ go
Fricatives (9)	/f/ fan, /v/ van, /θ/ thin, /ð/ this, /s/ sun, /z/ zoo, /ʃ/ ship, /ʒ/ measure, /h/ hat
Affricates (2), Nasals (3)	/tʃ/ chair, /dʒ/ judge · /m/ man, /n/ net, /ŋ/ sing
Lateral (1), Approximants (3)	/l/ leg · /r/ red, /w/ wet, /j/ yes

Sample transcriptions: engineer /ˌendʒɪˈnɪə/, machine /məˈʃiːn/, technology /tekˈnɒlədʒi/, measure /ˈmeʒə/, thought /θɔːt/, judge /dʒʌdʒ/, university /ˌjuːnɪˈvɜːsəti/. Mark ˈ = primary stress (syllable se pehle), ˌ = secondary stress.

YAAD RAKHO /θ/ (thin) voiceless hai, /ð/ (this) voiced hai. /j/ ka sound "y" hai, "j" nahi. Indian speakers aksar /v/ aur /w/ mix karte hain — vine /vaɪn/ vs wine /waɪn/.

UNIT II Communication Skills

1. Meaning of Communication

DEFINITION Communication is the process of exchanging information, ideas, thoughts and feelings between two or more persons through a common system of symbols (words, signs, gestures) so that **mutual understanding** is achieved. Word Latin "*communis*" (= common) se aaya hai.

Matlab sirf bolna kaafi nahi — jab tak receiver message ko **sender ke intended meaning** mein na samjhe aur feedback na de, communication complete nahi hota.

2. Process of Communication

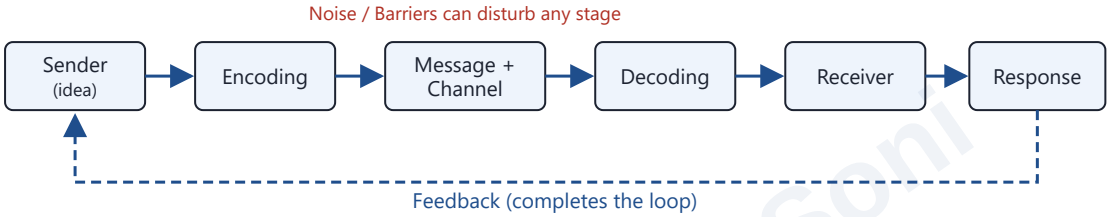

Fig. Two-way model of communication process

1. **Sender (Encoder)** — jiske mann mein idea aata hai, communication shuru karta hai.
2. **Encoding** — idea ko symbols (words, pictures, gestures) mein convert karna.
3. **Message** — encoded content jo bhejna hai.
4. **Channel/Medium** — message kis raste se jayega: face-to-face, phone, e-mail, letter, notice.
5. **Receiver** — jisko message milta hai.
6. **Decoding** — receiver symbols ko interpret karke meaning nikalta hai.
7. **Feedback** — receiver ka response; isse sender ko pata chalta hai ki message sahi samjha gaya ya nahi.
8. **Noise** — koi bhi disturbance (physical, semantic, psychological) jo message ko distort kare.

3. Significance of Effective Communication

- Organisation mein **planning, coordination aur control** ka base.
- Sahi aur timely **decision making**.
- **Misunderstanding aur conflict** kam karta hai.
- Employees ka **motivation aur morale** badhata hai.
- Teamwork aur **good human relations**.
- Customers/clients ke saath **public relations** aur goodwill.
- Leadership aur personality development.
- Time, money aur effort ki bachat (rework kam).

4. Types of Communication

Basis	Types	Key points / Example
Medium (expression)	**Verbal**: Oral, Written **Non-verbal**	Oral: meeting, phone, presentation (fast, instant feedback, no record). Written: letter, report, e-mail (permanent record, legal proof, slow). Non-verbal: **kinesics** (body language, gestures, facial expression), **proxemics** (space/distance), **paralanguage** (tone, pitch, pause), **chronemics** (time), haptics (touch), appearance, signs, charts.
Direction (flow)	Downward, Upward, Horizontal (lateral), Diagonal	Downward: manager → staff (orders, circulars). Upward: staff → manager (reports, suggestions, grievances). Horizontal: same level (HOD ↔ HOD). Diagonal: different department, different level.
Organisational relationship	Formal, Informal (Grapevine)	Formal: official chain of command, recorded. Informal/grapevine: unofficial, fast, but rumours bhi faila sakta hai.
Number of persons	Intrapersonal, Interpersonal, Group, Mass	Intrapersonal: khud se (thinking). Interpersonal: two persons. Group: meeting, GD. Mass: TV, newspaper, social media.

5. The 7 C's of Communication

C	Meaning (Hinglish)	Example
Completeness	Saari zaroori information do (5 W's + 1 H: who, what, when, where, why, how).	"The meeting will be held on 10 March at 11 a.m. in Room 204 to review the project."
Conciseness	Kam words mein baat; repetition/wordiness hatao.	"in spite of the fact that" → "although"; "at this point in time" → "now"
Consideration	Receiver ke point of view se likho ("You-attitude").	"We allow 5% discount" → "You will get a 5% discount."
Concreteness	Specific facts, figures; vague nahi.	"The machine is fast" → "The machine prints 40 pages per minute."
Clarity	Simple, familiar words; ek sentence mein ek idea.	"utilise" → "use"; "remuneration" → "pay" (jahan suit kare)
Courtesy	Polite, respectful, sincere tone.	"You failed to send the cheque" → "We have not yet received your cheque."
Correctness	Grammar, spelling, facts, figures sab sahi; right level of language.	Check dates, amounts, names before sending.

YAAD RAKHO Mnemonic **"CC CC CC C"** → **C**larity, **C**onciseness, **C**oncreteness, **C**orrectness, **C**onsideration, **C**ourtesy, **C**ompleteness. (Kuch books mein Coherence bhi aata hai.)

6. Barriers to Communication and Ways to Overcome Them

Barrier	Examples	How to overcome
Physical / Environmental	Noise, distance, poor network, bad lighting, faulty equipment	Quiet place, good equipment, proper seating, check network
Semantic / Language	Jargon, ambiguous words, different meanings (e.g., "bank"), poor translation	Simple, precise words; define technical terms; avoid jargon with lay audience
Psychological / Emotional	Anger, fear, prejudice, poor attention, premature evaluation, closed mind	Calm mind, empathy, active listening, open attitude
Organisational	Too many levels (filtering), rigid rules, status difference, information overload	Flat structure, open-door policy, clear channels, proper delegation
Cultural / Socio-cultural	Different customs, gestures, values, time-sense	Cultural awareness, respect differences, avoid stereotypes
Personal / Physiological	Hearing problem, poor voice, lack of confidence, poor listening	Training, practice, use of aids, feedback

EXAM TIP General ways to overcome: (1) clear objective, (2) know your audience, (3) right channel, (4) follow 7 C's, (5) **active listening**, (6) **seek feedback**, (7) match verbal and non-verbal cues, (8) proper timing.

7. Importance of Communication for Technical Students

- **Placement**: GD, interview, resume — sab communication par based.
- **Technical writing**: lab reports, project reports, manuals, research papers.
- **Presentations**: seminars, project viva, client demos.
- **Teamwork**: engineers multidisciplinary teams mein kaam karte hain.
- Complex technical ideas ko **non-technical clients/managers** ko simple language mein samjhana.
- **Global workplace**: e-mails, video calls with international teams.
- Instructions, specifications aur safety norms ko sahi samajhna — galti = accident/loss.
- Career growth, leadership aur entrepreneurship.

UNIT III Developing Writing Skills

1. Comprehension Skills

Reading comprehension = passage ko padhkar uska meaning, main idea, details aur writer ka purpose samajhna aur questions ka answer dena.

Reading techniques

- **Skimming** — fast reading to get the **gist/main idea** (title, first & last para, topic sentences).
- **Scanning** — specific information (date, name, figure) dhundhna, jaise timetable mein train ka time.
- **Intensive reading** — detailed, careful reading for full understanding (textbook, agreement).
- **Extensive reading** — pleasure/general knowledge ke liye bade texts (novels, magazines).

Steps to answer a comprehension passage

1. Questions pehle padho, phir passage.
2. Passage 2 baar padho: pehle skim, phir carefully.
3. Answers **apne words** mein, complete sentences; lines copy mat karo.
4. Vocabulary: context se meaning guess karo; same part of speech mein answer.
5. Answer passage ke facts par based ho, apni opinion nahi.
6. Title question: central idea batane wala short title.

2. Essay Writing (Technical and Current Topics)

Essay ek topic par organised, coherent prose composition hai. Types: descriptive, narrative, expository, argumentative, reflective.

- **Title** — clear and relevant. **Introduction** (1 para) — hook (quote, fact, question), background, **thesis statement**.
- **Body** (3–4 paras) — har para mein ek idea: topic sentence + explanation + example/data; linkers (moreover, however, therefore, for instance).
- **Conclusion** (1 para) — summary + suggestion/future outlook; naya point nahi.

Sample topics: Artificial Intelligence: Boon or Bane; Electric Vehicles and the Future of Transport; Digital India; Cyber Security; Renewable Energy; Role of Engineers in Nation Building; Climate Change; 5G Technology; Startups in India.

SAMPLE INTRO *"Artificial Intelligence (AI) is no longer a concept of science fiction; it is a part of our daily lives, from voice assistants to medical diagnosis. It offers great benefits, but it also raises serious concerns about jobs, privacy and ethics."*

3. Precis Writing

DEFINITION A precis is a clear, concise and logical summary of a passage, written in the writer's own words, which retains all the essential ideas of the original. Normally length = **one-third** of the original.

Steps

1. Passage 2–3 baar padho, central theme samjho.
2. Main points underline/note karo.
3. Words count karo; target = ⅓ (e.g., 300 → ~100 words).
4. Rough draft apne words mein, logical order mein.
5. Compare with original — koi key point chhuta na ho; phir fair copy.
6. Suitable **title** do; end mein word count likho.

Rules (Do's and Don'ts)

- **Third person** aur **past tense / indirect speech** use karo.
- Examples, illustrations, repetitions, quotations, figures of speech **hatao**.
- Apni opinion/comment add mat karo.
- Abbreviations aur note-form nahi — complete sentences.
- Phrases ko one-word substitutes se replace karo ("a person who cannot read or write" → "illiterate").

4. Noting and Drafting

Government/official offices mein kisi file par decision lene ka process. **Noting** aur **Drafting** dono official procedure ke part hain.

DEFINITION **Noting**: written remarks recorded on a file (on the "note sheet") to facilitate the disposal of a case — summary of facts, relevant rules/precedents and suggested course of action. **Drafting**: preparing the preliminary version (draft) of an official communication — letter, memo, circular, notice, order — for approval by a competent authority before it is issued.

Features of a good note

- Brief, objective, factual, impersonal (third person).
- Problem/receipt ka summary, relevant rules/precedents.
- Clear suggestion/recommendation.
- Paragraphs numbered; signed with name, designation, date.

Features of a good draft

- Approved note ke decision ke according.
- Correct format, reference number, date, subject.
- Clear, concise, polite official language.
- "Draft for approval" likha jata hai; approval ke baad fair copy issue hoti hai.

```
NOTE (sample)
Subject: Purchase of 20 computers for the CSE Laboratory
1. The HOD, CSE, has requested 20 new computers for the Programming Lab
   (p. 3/c), as the existing systems are more than eight years old.
2. Funds of Rs 12,00,000 are available under the Lab Equipment head.
3. As per the purchase rules, quotations may be invited from at least three firms.
   Submitted for approval, please.
                                  Sd/- (Section Officer)   05.10.2026
Registrar  – Approved.  Sd/-
```

5. Technical Definition

Technical definition kisi technical term ka **precise, unambiguous** meaning batata hai. Three types:

- **Informal (parenthetical)** definition — synonym ya short phrase brackets/commas mein: *The alternator (an AC generator) charges the battery.*
- **Formal (sentence) definition** — three parts: **Term = Class (genus) + Distinguishing features (differentia)**.
- **Extended (amplified) definition** — formal definition ko explain karna through examples, etymology, comparison/contrast, analogy, cause-effect, illustration/diagram, principle of working.

Term	Class	Distinguishing features
A thermometer	is an instrument	that measures temperature.
A transformer	is a static electrical device	that transfers AC power from one circuit to another at the same frequency by electromagnetic induction.
A compiler	is a program	that translates source code written in a high-level language into machine code.

COMMON MISTAKE (1) **Circular definition**: "A generator is a device that generates electricity" ✗ (same word repeat). (2) Class bahut broad ("A lathe is a thing...") ✗. (3) "is when / is where" use mat karo: "Corrosion is when metal rusts" ✗.

6. Technical Description

Technical description kisi **object/mechanism** (e.g., a bicycle pump) ya **process** (e.g., how a refrigerator works) ka precise, objective, detailed account hai, taaki reader use samajh sake ya bana/use kar sake. Language: objective, impersonal, precise measurements (with units), labelled diagram.

Description of an object/mechanism

1. **Introduction**: definition, purpose/function, overall appearance (size, shape, material), main parts list.
2. **Part-by-part description**: har part ka shape, size, material, position, function (spatial order).
3. **Conclusion**: how parts work together, one complete cycle of operation, uses.

Description of a process

1. **Introduction**: what the process is, purpose, equipment/materials required.
2. **Steps** in **chronological order**, mostly in **passive voice, present tense**.
3. **Conclusion**: result/output, precautions.

SAMPLE *"A fuse is a safety device which protects an electric circuit from excessive current. It consists of a thin wire of low melting point, made of an alloy of tin and lead, enclosed in a porcelain holder. When the current exceeds the rated value, the wire heats up and melts, and the circuit is broken."*

UNIT IV Business Correspondence

1. Introduction to Business and Official Letters

Business letters firms, companies aur customers ke beech trade-related communication ke liye (enquiry, order, complaint). **Official letters** government offices/institutions ke beech ya unko likhe jaate hain (application, permission, circulars). Dono **formal, permanent written record** aur **legal evidence** hote hain. **Qualities:** 7 C's, proper layout, You-attitude, correct salutation/close, neat presentation, promptness.

2. Layout of a Business Letter

Parts (in order)

1. **Heading / Letterhead** — sender's name, address, phone, e-mail
2. **Reference number** (Ref. No.) and **Date** (5 October 2026)
3. **Inside address** — receiver's designation, company, address
4. **Attention line** (optional) — Kind attn.: Purchase Manager
5. **Salutation** — Dear Sir/Madam, / Dear Mr Sharma,
6. **Subject line** — Subject: Enquiry about...
7. **Body** — opening, main, closing paragraphs
8. **Complimentary close** — Yours faithfully, / Yours sincerely,
9. **Signature** — signature, name, designation
10. **Enclosures** (Encl.), **cc** (copy to)

Formats (styles)

- **Full block** — sab kuch left margin par, no indentation (most popular).
- **Modified block** — date, close, signature right side; paras left aligned.
- **Semi-block** — modified block + indented paragraphs.

```
ABC Electronics Pvt. Ltd.
12, MP Nagar, Zone-I, Bhopal 462011
Ref. No.: ABC/PUR/2026/45
5 October 2026
The Sales Manager
XYZ Instruments Ltd.
Sector 5, Noida 201301
Dear Sir/Madam,
Subject: ..............................
[Opening para: purpose]
[Main para: details]
[Closing para: action expected]
Yours faithfully,
(Signature)
R. K. Gupta
Purchase Manager
Encl.: ...     cc: ...
```

YAAD RAKHO "Dear Sir/Madam" → **Yours faithfully**. Name se salutation ("Dear Mr Verma") → **Yours sincerely**.

3. Types of Letters

(a) Job Application (Covering letter + Resume)

Format: sender's address & date → inside address (HR Manager) → subject (post + advertisement reference) → body: **(1)** source of advertisement & post, **(2)** qualifications, skills, projects/experience, **(3)** why you suit the company, **(4)** request for interview → Yours faithfully → Encl.: Resume.

Resume sections: Name & contact → Career objective → Education (latest first) → Technical skills → Projects/Internships → Achievements → Extra-curricular activities → Personal details → Declaration.

```
Subject: Application for the post of Graduate
         Engineer Trainee
Dear Sir/Madam,
With reference to your advertisement in The Times
of India dated 1 October 2026, I wish to apply for
the post of Graduate Engineer Trainee. I have
completed my B.Tech. in Mechanical Engineering from
UIT, Barkatullah University, Bhopal, with a CGPA of
8.2. During my internship at BHEL, Bhopal, I worked
on the maintenance of steam turbines. My resume is
enclosed for your kind consideration. I would be
grateful for an opportunity to attend an interview.
Yours faithfully,
Ankit Sharma              Encl.: Resume
```

(b) Letter of Enquiry

Product/service ke baare mein information (price, specifications, discount, delivery, terms) maangna. Brief, specific, polite.

```
Subject: Enquiry about digital multimeters
Dear Sir/Madam,
We wish to purchase 50 digital multimeters for our
electrical laboratory. Kindly send us your latest
price list along with details of specifications,
trade discount, delivery period, warranty and terms
of payment. An early reply will be appreciated.
Yours faithfully,
```

(c) Quotation (reply to an enquiry)

Thanks for enquiry → item-wise **rates**, discount, GST, delivery, payment terms, **validity** → hope for order.

```
Subject: Quotation for digital multimeters
Dear Sir/Madam,
Thank you for your enquiry dated 5 October 2026.
We are pleased to quote as follows:
Digital Multimeter DM-200: Rs 1,200 each (50 units)
Trade discount: 10%   GST: 18% extra
Delivery: within 15 days   Warranty: one year
This quotation is valid till 31 October 2026.
We look forward to receiving your order.
Yours faithfully,
```

(d) Complaint Letter

Defective/wrong goods, delay, poor service. Firm but **polite**, factual: order no., date, exact problem, specific action (replacement/refund).

```
Subject: Defective multimeters - Order No. 2026/88
Dear Sir/Madam,
We received 50 digital multimeters against the
above order on 20 October 2026. On inspection,
8 units were found to be dead and 3 had cracked
casings. Please replace these 11 units within a
week, as our laboratory work is being affected.
The defective units will be returned at your cost.
Yours faithfully,
```

(e) Adjustment Letter (reply to a complaint)

Granting: regret → accept claim → cause → action → assurance.
Refusing: buffer → reasons → polite refusal → alternative offer.

```
Subject: Replacement of defective multimeters
Dear Sir/Madam,
We are sorry to learn that 11 of the multimeters
supplied to you were defective. We have dispatched
11 new units today by courier. The fault was caused
by a packing error, and steps have been taken to
prevent its recurrence. We regret the inconvenience
and assure you of our best service in future.
Yours faithfully,
```

(f) Tender

Tender notice: govt./organisation kisi work ya supply ke liye **sealed bids** invite karti hai — open, competitive, transparent process. **Tender (bid)** = contractor ka offer.

Must include: issuing authority, tender no., nature of work, estimated cost, EMD (Earnest Money Deposit), cost of form, last date & time, opening date & place, eligibility, "right to reject" clause.

```
        BARKATULLAH UNIVERSITY, BHOPAL
        TENDER NOTICE No. BU/ENG/2026/12
Sealed tenders are invited from registered firms
for the supply and installation of 100 LED street
lights on the university campus.
Estimated cost: Rs 8,00,000   EMD: Rs 16,000
Last date: 30 October 2026, 3 p.m.

4. E-mail Writing

- **To / Cc / Bcc** — Cc: visible copy; Bcc: hidden copy
- **Subject** — short, specific
- **Salutation** → **Body** (purpose in first line, short paras) → **Closing** (Regards) → **Signature block**; attachment ka mention body mein
- **Netiquette**: professional e-mail ID, no ALL CAPS (shouting), no emojis/slang, proofread, check attachment, "Reply all" carefully, reply within 24 hours.

```
To: hr@abcpower.com
Subject: Application for summer internship
Dear Sir/Madam,
I am a second-year B.Tech. (Electrical) student
at UIT, Barkatullah University, Bhopal. I would
like to apply for a four-week summer internship
at your organisation in June 2027. My resume is
attached.
I look forward to your response.
Regards,
Priya Verma | +91 98XXXXXXXX

UNIT V Report Writing

1. Report — Meaning and Features of a Good Report

DEFINITION A report is a formal, factual and organised document prepared for a specific purpose and audience, which presents information, findings, analysis, conclusions and (often) recommendations on a particular subject.

- **Accuracy** — facts, figures, data sahi aur verified.
- **Objectivity** — unbiased, impersonal (third person, passive).
- **Clarity & Precision** — simple, specific language.
- **Conciseness** — sirf relevant matter.
- **Logical structure** — headings, sub-headings, numbering.
- **Completeness** — saare aspects covered.
- **Visual aids** — tables, graphs, charts.
- **Timeliness** — time par submit.
- **Reader-oriented** — audience ke need ke hisaab se.
- **Proper format** and documentation (references, appendices).

Types: Formal/Informal; Long/Short; Informational (only facts) / Analytical (facts + analysis + recommendations); Periodic/Routine (progress report) / Special (trouble report); Oral/Written.

2. Structure of a Formal Report

Section	Elements and contents
Prefatory (Front) matter	**Title page** (title, submitted to/by, date) · **Letter of transmittal** (covering letter) · Preface/Acknowledgement · **Table of contents**, list of figures/tables · **Abstract / Executive summary** (purpose, findings, recommendations in short — busy reader ke liye)
Main body	**Introduction** (background, purpose, scope, methodology, limitations) → **Discussion/Findings** (data, analysis, tables/graphs) → **Conclusions** (what the findings mean) → **Recommendations** (suggested action)
Supplementary (End) matter	References/Bibliography · Appendices (supporting data) · Glossary · Index

EXAM TIP Short formal report (memo/letter style) ke liye: **To, From, Date, Subject** → **Introduction** → **Findings** → **Conclusions** → **Recommendations** → **Signature**. Exam mein yahi format likho.

3. Report of Trouble (Trouble Report / Incident Report)

Kisi **accident, breakdown, malfunction ya problem** ki report jo higher authority ko turant bheji jati hai taaki corrective action liya ja sake. Facts clear, time-specific, objective; kisi par blame lagana nahi.

Headings yaad rakho: What happened (description, date, time, place) → Cause → Effect/Damage → Immediate action taken → Recommendations to prevent recurrence.

```
To: The Plant Manager      Date: 5 October 2026
From: Shift Engineer, Boiler Section
Subject: Breakdown of Boiler No. 2
1. Trouble: At 10:30 a.m., Boiler No. 2 tripped
   due to a sudden drop in feed-water pressure.
2. Cause: The feed-water pump motor burnt out
   because of overloading.
3. Effect: Steam supply to Unit B was stopped for
   three hours. No one was injured.
4. Action taken: The standby pump was started and
   normal operation was restored at 1:30 p.m.
5. Recommendations: Replace the motor, install an
   overload relay and carry out monthly preventive
   maintenance of the pumps.
                        Sd/- (Name), Shift Engineer
```

4. Laboratory Report

Laboratory mein kiye gaye experiment ka record — taaki koi bhi use repeat karke result verify kar sake. Language: **passive voice, past tense** (procedure), impersonal.

Structure: (1) Title, Experiment No., Date → (2) Aim/Objective → (3) Apparatus → (4) Theory/Principle (with formula) → (5) Circuit/Diagram → (6) Procedure (numbered steps) → (7) Observations (table) → (8) Calculations → (9) Result → (10) Precautions/Sources of error → (11) Conclusion/Discussion.

Example — Aim: To verify Ohm's law. Procedure: "The circuit was connected as shown in the diagram. The voltage was increased in steps of 1 V, and the corresponding current was noted." Result: "The ratio V/I was found to be constant; hence, Ohm's law is verified."

5. Progress Report

Ongoing project/work ki **status** batane wali periodic report (weekly, monthly, quarterly). Management ko pata chalta hai ki work schedule ke according chal raha hai ya nahi, aur kya problems hain.

Headings: Introduction (project, period covered) → Work completed → Work in progress → Problems faced → Work planned for next period → Overall appraisal (on/behind schedule, cost).

```
To: The Project Head        Date: 5 October 2026
From: Site Engineer, Hostel Block-C
Subject: Progress report for September 2026
1. Introduction: Construction began on 1 July 2026;
   completion is scheduled for 31 March 2027.
2. Work completed: foundation and ground-floor
   columns (100%); first-floor slab (60%).
3. Problems faced: Work was delayed by eight days
   due to heavy rain and a shortage of cement.
4. Next month: completing the first-floor slab.
5. Appraisal: The project is one week behind
   schedule but will be completed on time with
   an additional shift.          Sd/- Site Engineer
```

6. Slogan Writing

Slogan = short, catchy, memorable phrase jo ek idea/message ko promote kare (social awareness, product, campaign). Features: **short** (3–8 words), catchy, rhyme/alliteration, positive, easy to remember, clear message.

Save water: "Save water, save life." / "Every drop counts."

Road safety: "Speed thrills but kills."

Environment: "Go green, keep it clean."

Cleanliness: "A clean India is a healthy India."

Energy: "Switch off — save energy, save money."

Cyber safety: "Think before you click."

7. Advertising

Advertisement = paid, non-personal communication by an identified sponsor to promote a product, service or idea through media (newspaper, TV, radio, internet, hoardings). Types: **Classified** (small, text-only, in columns — situations vacant, for sale, to let, matrimonial) aur **Display/Commercial** (big, design, pictures, slogans).

AIDA model

- **A**ttention — catchy headline/visual
- **I**nterest — features of the product
- **D**esire — benefits, offers, discount
- **A**ction — "Call now", contact/address

```
      SOLAR WATER HEATERS
   Hot water. Zero electricity bills!
 * 100 L / 200 L models * 5-year warranty
 * Free installation * 20% festive discount
   SunPower Solutions, MP Nagar, Bhopal
       Call: 0755-2XXXXXX
```

Classified example: SITUATION VACANT — Wanted Diploma/B.Tech. Electrical Engineers for a power company in Bhopal. Experience: 1–2 years. Attractive salary. Apply with resume within 10 days to hr@xyzpower.com.

8. Book Review

Book review ek critical evaluation hai — book ka summary + strengths/weaknesses + recommendation. Sirf summary nahi, **judgement** bhi zaroori hai.

Structure: (1) **Bibliographic details** — title, author, publisher, year, pages, price, genre → (2) **Introduction** — author and theme → (3) **Summary** — brief outline (poora plot reveal mat karo) → (4) **Critical evaluation** — style, language, presentation, strengths and weaknesses → (5) **Conclusion & Recommendation** — who should read it, overall rating.

> **SAMPLE** *"Wings of Fire (Universities Press, 1999) is the autobiography of Dr A. P. J. Abdul Kalam, written with Arun Tiwari. It traces his journey from a small town, Rameswaram, to becoming one of India's leading scientists. The book describes his work on the SLV-3 and on India's missile programme. Written in simple and inspiring language, it shows how hard work and faith can overcome every obstacle. Although some technical sections may seem lengthy to general readers, the book is highly recommended for every engineering student."*
